United Way and CD-adapco Help Hurricane Sandy Victims

Deer Park, NY, May 23rd, 2013- The aftermath of Hurricane Sandy compelled United Way of Long Island to form operation Rebuild and Recovery. In partnership with the Health & Welfare Council of Long Island and the Long Island Volunteer Center, under the umbrella of Long Island Voluntary Organizations Active in Disaster (LIVOAD) local companies are being asked to lend a helping hand and work with recovery/rebuild teams as volunteers.

CD-adpaco the world's largest independent CFD focused provider of engineering simulation software, support and services sent a team of volunteers to help with a Hurricane Sandy recovery/rebuild project at a home in Amityville on Saturday, May 18th. Under the supervision of team leader Steve Muzyka from the United Way of Long Island, the CD-adapco volunteers removed debris from the home and property and brought new sheet-rock into the house. They also removed dead shrubs and planted new shrubs.

About CD-adapco

CD-adapco (www.cd-adapco.com [2]) is the world's largest independent CFD focused CAE provider. Our core products are the technology-leading simulation packages, STAR-CCM+ and STAR-CD. The scope of our activities, however, extends well beyond CFD software development to encompass a wide range of CAE engineering services in fluid dynamics, heat transfer and structural engineering. Our ongoing mission is to "inspire innovation and reduce

costs through the application of engineering simulation software and services."

A privately owned company, CD-adapco has maintained 17% organic year-on-year growth over the last 5 years. CD-adapco employs 700 talented individuals, working at 30 different offices across the globe.
