About

Steve MacDonald
President and Founder

CD-adapco is the world's largest

independent CFD focused provider of engineering simulation software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation. The scope of our activities extends well beyond software development to encompass a wide range of CAE engineering services in both CFD and FEA.

We have over 8000 users of our software, working at 3000 different companies, spending over \$181 million on our software and services. Our customer approval ratings are very high; in our last customer survey 93% of our customers declared themselves satisfied, or very satisfied with our software and services, a fact reflected in a consistently high customer retention rate.

Consistently growing at an organic rate of over 15% per year, CD-adapco employs over 850 talented individuals, working at 30 offices around the globe [1], involved in dedicated support [2], software development and engineering services [3].

Our Purpose

CD-adapco's principal aim is "Engineering Success." We aim to help our customers to succeed through the application of engineering simulation, driving innovation in their products AND reducing the engineering time and cost associated with bringing those products to market.

Our global team of highly qualified support engineers will ensure that you are successful at every stage of the analysis process. From the minute you start using our software, you will have a dedicated support engineer available whenever needed, be it on the telephone, through an e-mail, online chat, or at your site. Your dedicated engineer will learn how you work and understand your expectations, thus providing you with tailored, proactive, flexible support and an unrivaled level of personal service.

CD-adapco is the world's largest independent CFD focused provider of engineering simulation software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation.
