Automotive Brochure

Over the years, CD-adapco has been at the forefront of a revolution in computer-aided engineering in which CFD has become integrated into the design process, enabling development cycles to be shortened. The resulting benefits for the organization are reduced labor costs and faster time to market.

CD-adapco

Industries:

Automotive [2]

CD-adapco is the world's largest independent CFD focused provider of engineering simulation software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation.
