Engineering Simulation Demonstrates Ability to Impact All Aspects of Wind Farm & Wind Turbine Design

Flier:

In order to meet the world's energy demands in a sustainable manner, engineers need to deliver robust innovative technology. For 30 years, CD-adapco has enabled energy engineers to do just that in the 'traditional' energy sectors, and we now routinely apply the same advanced engineering simulation technology to all facets of the Wind Energy sector.

Industries:

[Energy](#)^[2]

CD-adapco is the world's largest independent CFD focused provider of engineering simulation software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation.
