## State-of-the-art simulation for the marine industry

### Flier:

CD-adapco has a long history of providing state-of-the-art flow, thermal and stress simulation to the marine industry. From large shipyards to suppliers of small components, the use of our technology has become a standard feature in marine design and safety assurance process. Using our cutting-edge solver technology, our customers have been able to tackle some of the most demanding problems

### Industries:

[Marine](#) <sup>[2]</sup> ? Marine - Application

[Marine](#) <sup>[2]</sup> ? Marine - Sub-Industry

[Marine](#) <sup>[2]</sup> ? Marine - Technology

CD-adapco is the world's largest independent CFD focused provider of engineering simulation software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation.
