Salesforce Web Developer

Job Title:

Salesforce Web Developer

CD-adapco is the world's largest independent CAE-focused provider of engineering simulation software, support, and services. We are seeking a web developer with experience of the Salesforce.com platform, to join a small development team based in London, UK. This team is responsible for enhancing, maintaining and testing our customer portal and related internal views and systems for our customer support engineers.

As a Salesforce Web Developer at CD-adapco, you will be expected to:

- Design, implement and test innovative enhancements to our customer portal, supporting multiple languages and the most commonly used web browsers.
- Perform general maintenance tasks such as debugging, browser testing, writing unit tests, and monitoring of related servers.
- Write documentation such as data models, specifications and user guides where necessary.

As an applicant for this position, you should have:

- Bachelor's degree (or equivalent) in Computer Science (or similar).
- a strong knowledge of the Salesforce platform, to include at least one year's recent experience of development using Apex and Visualforce.
- a strong knowledge of modern web standards and be familiar with commonly used Javascript libraries.

Experience in the following will be an advantage:

- database design concepts
- Web Services

CD-adapco is an equal opportunity employer and does not discriminate on the basis of race, religion, colour, sex, age, physical or mental disability, national origin, genetic information, or any other basis covered by appropriate law. All employment is decided on the basis of qualifications, merit and business need.

If you are an individual with a disability and would like to contact us regarding the accessibility of our site, need assistance completing the application process or would like to request a reasonable accommodation, please contact the Human Resources Manager at hr-us@cd-adapco.com [1].

About CD-adapco

CD-adapco is the world's largest independent CFD-focused provider of engineering simulation software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation. The scope of our activities extends well beyond software development to encompass a wide range of CAE engineering services in both CFD and FEA.

We have over 7,000 users of our software, working at 3,000 different companies, spending over \$100 million on our software and services. Our customer approval ratings are very high; in our last customer survey 93% of our customers declared themselves satisfied, or very satisfied with our software and services, a fact reflected in a consistently high customer retention rate.

Consistently growing at an organic rate of over 17% per year, CD-adapco employs over 700 talented individuals, working at 21 offices around the globe, involved in dedicated support, software development and engineering services. If you would like to be part of this dynamic and innovative organisation, please forward your application (CV and Cover Letter) to hr-uk@cd-adapco.com [2]
