Technical Specialist, Oil & Gas

Job Title:

Technical Specialist, Oil & Gas

Location:

Houston, Texas

Reference Code:

AR-TBD-123

To support and accelerate CD-adapco's growth in the Oil & Gas industry, we are seeking a qualified candidate for the position of a Technical Specialist, Oil & Gas. Working as part of the Business Development Team, this individual's role will be to further develop CD-adapco's Oil & Gas business. This will include developing application examples and best practices, train and support other members of the Product Delivery Team (sales, pre- and post-sales), work with other internal and external stakeholders and present at industry conferences.

Position Requirements:

- Master's Degree in Engineering, preferably in Petroleum, Mechanical, Civil or Chemical, with a strong modeling component.
- Minimum 3 years of experience using CFD in Oil & Gas;
- Thorough understanding of CFD, fluid dynamics and heat transfer;
- Thorough understanding of the Oil & Gas industry;
- Knowledge of multiphase flow modeling, FEA and Fluid Structure Interaction a plus;
- Excellent communication and people skills;
- Manage and prioritize multiple projects based on given objectives.

This position requires international travel.

CD-adapco is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, national origin, citizenship, marital status, gender, age, sexual orientation, genetic information or protected veteran status and will not be discriminated against on the basis of disability. All employment is decided on the basis of qualifications, merit and business need.

If you are an individual with a disability and would like to contact us regarding the accessibility of our site, need assistance completing the application process or would like to request a reasonable accommodation, please contact the Human Resources Manager at: hr-us@cd-adapco.com ^[1]

About CD-adapco

CD-adapco is the world's largest independent CFD focused provider of engineering simulation

software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation. The scope of our activities extends well beyond software development to encompass a wide range of CAE engineering services in both CFD and FEA.

We have over 7,000 users of our software, working at 3,000 different companies, spending over \$100 million on our software and services. Our customer approval ratings are very high; in our last customer survey 93% of our customers declared themselves satisfied, or very satisfied with our software and services, a fact reflected in a consistently high customer retention rate.

Consistently growing at an organic rate of over 17% per year, CD-adapco employs over 850 talented individuals, working at 30 offices around the globe, involved in dedicated support, software development and engineering services.

CD-adapco is the world's largest independent CFD focused provider of engineering simulation software, support and services. We have over 30 years of experience in delivering industrial strength engineering simulation.
