Fujitsu

Fujitsu has been leading the HPC market over 30 years with a variety of computing products to meet comprehensive technical computing requirements. The latest x86-based products lineup are: PRIMERGY CX1000, a new cloud server infrastructure platform; PRIMERGY BX900, industry leading blade server; and PRIMERGY RX200, Dual-Socket 1U rack server. We are also developing our cutting-edge technologies of multi petaflops class supercomputer.
